Member of board of director
Civil Engineer

Main Staff

1— Project Managers

- **Hamid Reza Sepahvand civil engineer- 30 years job experiences**
- **Mansour Aboudi civil engineer– 30 years job experiences**
- **Saeed Khalili civil engineer– 13 years job experiences**
- **masood Zarringhalam civil engineer– 24 years job experiences**

2— Technical Managers

- **Abdoalreza Seifi civil engineer– 15 years job experiences**
- **Mohammad Abdipour civil engineer– 15 years job experiences**
- **Ahmad Abdipour civil engineer– 10 years job experiences**
- **Sajad Abdipour architectal engineer– 5 years job experiences**
- **Yaser Moradi civil engineer– 10 years job experiences**

3 — Finance Managers

- **Dr.Vahid Badiie finance Specialist - 20 years job experiences**
- **Kavous Javadzadeh Managing Expert - 15 years job experiences**
- **Nader Ahmadi finance Specialist - 11 years job experiences**
- **Behruz Amiri finance Specialist - 11 years job experiences**
- **Abbas Pouyanfar finance Specialist - 31 years job experiences**
- **Babak fakhraavar finance Specialist - 5 years job experiences**
- **mohamad Razi finance Specialist - 12 years job experiences**

4 — Site Managers

- **Siamak Karami civil engineer– 17 years job experiences**
- **Mehrdad Abdipour civil engineer– 10 years job experiences**
- **Navid Ramak civil engineer– 11 years job experiences**
- **ali Tahmasebi.....civil engineer– 21 years job experiences**
- **Kamran Zeinali civil engineer– 10 years job experiences**
- **Ayoob Shakarami civil engineer– 10 years job experiences**

Main Staff

5— Project Control

- **Hamed Mohammadzade civil engineer— 7 years job experiences**
- **Alee Taffee..... Gas Industries engineer— 7 years job experiences**

6— Central technical Office

- **Mahdi Jalili civil engineer— 10 years job experience**
- **Saeed Tafae civil engineer— 8 years job experiences**
- **Hamed Abdipour civil engineer— 4 years job experiences**

7— Khorram Abad technical Office

- **Yousef Arsha industries expert-6 years job experience**

8— Asalooye technical Office

- **Hasan Bazgir Software Engineer - 6 years job experience**

9—Kangan Tectechnical Office

- **Ebrahim Afshar 5 years job experience**

10— Quality control

- **reza Ahmadi soil Mechanic & technical lab. Expert— 33 years job experience**

11— Safety Manager (H.S.E)

- **Saeed Abdipour Technician - 6 years job experience**
- **Dariush Asadi civil engineer— 10 years job experiences**
- **Dariush Tavakoli 20 years job experiences**

Statement of Work for Repairs on the Salang Corridor

**Islamic Republic of Afghanistan
Ministry of Public Works**

Job experiences

Statement of Work for Repairs on the Salang Corridor

The Salang Tunnel, situated at kilometer (km) 113.9 on the Kabul-Salang-Dushi Road within Parwan Province, is considered among the most important stretches of road in all of Afghanistan. The 2.6km long tunnel and its 21 avalanche galleries (15 galleries on the south side and six on the north side) have served as the major conduit for traffic traveling from Kabul to the northern provinces and beyond to Uzbekistan and Tajikistan since it was construction by the Soviets in 1964.

Job experiences

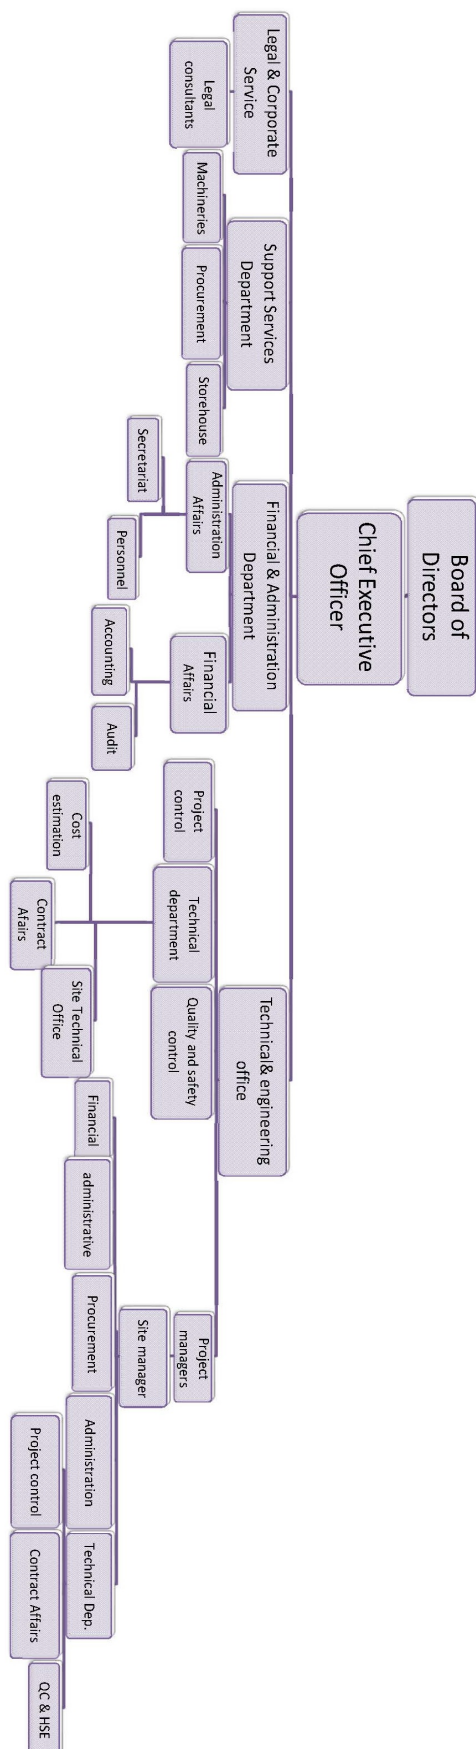

Statement of Work for Repairs on the Salang Corridor

Substantial civil and structural repairs are urgently needed to the Salang Highway and pavement drainage system, concrete lining, lower and upper retaining wall, as well as the structural and drainage repair to the 21 avalanche galleries. Also, the restoration of the ventilation, electrical, mechanical, and emergency systems is essential. The contract will awarded as a design build contract to the most qualified firm with the best implementation plan.

In some areas, the roadway is restricted to one-lane due to the deteriorated conditions within the tunnel. Areas where land mass is limited, demolition of mountain is required to increase area to develop the road.

Development of rest areas where vehicles can park during closure and areas where chains can be applied to the vehicles during the winter season. 2 Rest areas need to be designed and constructed on both sides of the Salang tunnel at the most optimal locations. Ideal locations should be considered if possible in Pushta-Surkh, Awlang, Khenjan, Dooshakh or Malkhan.

Installation and design of 2 weight scale gates for traffic and weight control. One scale station needs to be installed at each entrance of the Salang highway.

One civil construction company

ONE CIVIL CONSTRUCTION COMPANY

شرکت ساختمانی ون سیول

Form: One Civil Construction Com.
To: Whom it may concern
Subject: Introduction of OCCC
Date: 11, July, 2010

Dear Sir/Madam

First of all, on behalf of OCCC Construction Company, would like to thank you for giving us an opportunity to have Contact with you.

OCCC Construction Company, which has been registered by Afghanistan Investment Support Agency under License # D-35012, equipped with construction tools and instruments and it is leading a group of engineers operating in structure of Roads, structure of Buildings, structures of Bridges, and structure of dams and Laboratory services which is registered in Corp of Engineering.

On behalf of our company would like to request you kindly to consider our request favorably to add us in the list of your vendors and to give us an opportunity to work close with you in the categories of construction and implementation of the construction projects.

If you have interest to know detailed information concerning construction activities in which our company is involved, our past performances, our on-going projects, and our professional and technical staff and equipments are attached, we are looking for replay of this later.

Best regards,
Engineer Abdul wasi waheb
Director of OCCC

One civil construction company

Introduction

OCCC is an existing construction company which is joined with two others big construction companies by name of **Sepehr Baster Construction Company** (SBCC) and **Miaad iffel Construction Company** (MECC), (SBCC) is registered company in Iran and (MECC) is a registered company in Afghanistan Investment Support Agency (AISA) by License No : D-25751 . Our company provides you the following services in construction- and civil engineering:

- i) Structural design of projects in international level.
- ii) Supervising and monitoring of the implemented projects.
- iii) Providing materials for building (concrete, gravel and sand)
- iv) Testing of construction materials.
- v) Survey / Design of horizontal and vertical structures.

To make the above services possible, we have the expert's board of directors

Engineer Abdul wasi wahab	(M.S. in road and bridge structures)
Engineer Asad abdipour	(M.S. in civil engineering)
Engineer Moh.Hamayon ahmadyar	(M.S. in civil engineering)
Engineer Nasir ahmad akbari	(M.S. in civil engineering)
Engineer Nimat Bakhshi	(BSc in civil engineering)

One civil construction company

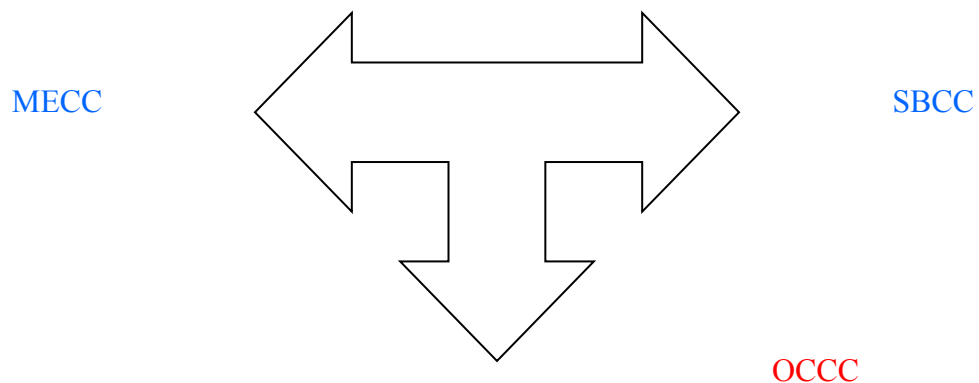

These people have a plenty of experience and have led various projects in their own field inside Afghanistan as well as abroad of country. In addition to these works, we have also an experienced group of employees, who take excellent care of the implementation of your projects with the help of necessary machinery which we own. A resume of our reference projects and machinery inventory is included. You could ask why you should choose our services. This is a good question, I'd say. The answer is very simple and sounds as follow: Not just because we are a good construction company or not even just because we create jobs for a lot of people, but especially because we are the construction company which considers quality as its first priority. This makes us different and able to be your partner in projects works.

Besides being our first priority, we consider other values in our company which are respect to everyone, customer satisfaction and community development. Looking forward to meeting your company's construction needs. We would like to meet you to discuss services we can provide. Please feel free to contact us to discuss your construction needs.
